

# YENHER TESTING LABORATORY

1684, Jalan IKS Simpang Ampat 1, Taman IKS Simpang Ampat, 14100 Simpang Ampat, S.P.S., Penang, Malaysia.

## ANALYSIS REQUISITION FORM

### Sender Details

Sender Name ( Dr / Mr / Ms ) : \_\_\_\_\_ Date Sent : \_\_\_\_\_  
 Company Name : \_\_\_\_\_  
 Address : \_\_\_\_\_  
 Contact No. : \_\_\_\_\_  
 Email : \_\_\_\_\_ Signature : \_\_\_\_\_  
 Customer Status :  Recurrent  First Time Date : \_\_\_\_\_  
 Bill To (if different from sender addr.) : \_\_\_\_\_  
 Specification :  Own, please attach.  EU legislation/ Feed Act  No  
 Statement of Conformity :  Yes  No Reporting Timeline : 3-7 working days

### Materials / Products Tested / Specimen Info

| No. | Sample Description | Materials / Products Tested / Specimen Info | Test Required and Test Method |
|-----|--------------------|---|-------------------------------|
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |
|     |                    |   |                               |

**Requirements:**  
*\*Sample must properly sealed and has unambiguous identification.*  
*\*Sample weight ≥ 200g*

Scan QR code for NIR prediction parameter  
(Non ISO 17025 accredited)

Scan QR code for T&C, ISO 17025 accredited parameter details

### Official Use Only
